PROFESSIONAL SUMMARY

Fullstack developer with hands-on experience building web applications, AI-powered features and production tooling.
Works across frontend and backend with React, TypeScript, Node.js, APIs and databases, backed by several years of enterprise IT consulting. Experienced in team-based development, code reviews, CI/CD, agile workflows and open-source projects, with a strong interest in AI and automation.

EXPERIENCE

Eyevinn Technology – Fullstack / AI Architect

November 2025 - April 2026 Internship

- Built AI-powered metadata extraction and content classification for open-source media tools.
- Built and maintained CI/CD pipelines across 3+ production repositories to speed up releases.
- Resolved technical tickets, reviewed code, and contributed to open-source codebases and roadmaps.

Red Capes – Frontend Developer

October 2023 - April 2024 Internship

- Built responsive, accessible websites using modern frontend and CMS tools.
- Owned projects from client requirements through SEO, performance optimization and launch.
- Partnered closely with design teams to deliver pixel-perfect brand implementation.

EDUCATION

Chas Academy - Frontend Developer

2024 - 2026

- Team leader and full-stack developer in a 10-week project with UI/UX and DevOps teams.
- Head of social media and communications in the student council.
- Built with React, TypeScript, Node.js, REST APIs and Tailwind CSS.
- Focused on accessibility, responsive design, AI-assisted development and modern web UX.

Nackademin - Fullstack Web Developer Open Source

2022 - 2024

- Built full-stack web applications using JavaScript, REST APIs, SQL/MongoDB and responsive design.
- Worked with Scrum, agile development, Git and CI/CD in collaborative team projects.
- Created frontend and backend projects from scratch, including API and database integration.

Randstad - IT Consultant

March 2019 - Present

- **Internal infrastructure technician:** Maintained servers, Active Directory, networks, hardware and on-site enterprise IT support.
  Tools: Jira Service Management, Google Workspace, SailPoint, Google Admin and Scrive.
- **PTK:** Managed hardware procurement, meeting-room installations, CMS troubleshooting and user support.
- **Polisen:** Provided IT support via phone and email for Windows, iOS, internal software, permissions and access issues.
- **Sveriges Radio:** Managed Active Directory, accounts, access permissions, software and technical support through calls, email and tickets.
- **NetNordic:** Maintained cloud server infrastructure, user access administration and telecom/MEX systems.
- **Advania:** Provided 1st/2nd-line support for Microsoft 365, accounts, permissions, hardware, software, networks and general troubleshooting.
